

# PACKLINE®

### **PACKLINE - A PERSONAL EXPRESSION**

At Packline, we are dedicated to making your life smarter, more convenient and safer. We understand that, to you, a roof box is more than just somewhere to store your luggage. It's an expression of your active lifestyle and your appreciation for quality products and great styling. We understand that a roof box has to look so good and perform so well, that you can even keep it on all year round. You want the perfect fusion of aerodynamic elegance, purposeful functionality and Scandinavian quality. That's why you deserve a Packline roof box.

### **THE ULTIMATE AERODYNAMIC EXPERIENCE**

We offer a wide range of robust roof boxes for your vehicle, from premium-finish fibreglass designs to roof-hugging tunnel box models and high-gloss ABS plastic for the ultimate fit and aerodynamic performance. When you invest in a Packline roof box, you are rewarded with a quieter, smoother and more relaxing journey... not to mention more miles between fill-ups (compared with other roof box designs).

**WHAT YOU DRIVE SAYS THAT YOU CARE ABOUT  
YOUR IMAGE. YOU APPRECIATE GREAT STYLE  
AND SCANDINAVIAN QUALITY,  
AND YOU DON'T SHOUT IT OUT...  
YOU DON'T NEED TO!**

#### **TAILORED TO YOU**

When you demand the very best fit for your vehicle, look no further than our selection of tunnel box models. When you choose a tunnel box model, we recommend the perfect roof bars for the best-looking, most streamlined solution for your vehicle.

#### **BUILT TO LAST**

Our products must be safe... you wouldn't expect anything less. That's why every one of our roof boxes are rigorously tested to meet the City Crash Test norm and give you the peace of mind you're looking for in your investment.

#### **INNOVATIVE ACCESSORIES**

From chrome trim, LED lighting and anti-slip mats, to integrated ski holders and roof box bags our range of Packline accessories makes every journey easier and more convenient.

Welcome to the world of Packline!

### 3 TIPS FOR A SAFER TRIP

- 1) Fasten your skis together inside the roof box
- 2) Place lighter luggage at the front
- 3) Secure the contents using the integrated fastening straps

### SIMPLE INSTALLATION

To make installing your Packline roof box simple and convenient, we have developed three mounting systems: iZi2Fit, BoxKit and our new iZi2Connect system. You'll find more information about our range of mounting solutions later in the catalogue.

### TWIN SHEET DESIGN FOR STRENGTH AND STABILITY

Twin Sheet production involves the vacuum moulding of two plastic layers to produce an extremely strong and stable structure. Our latest roof boxes featuring Twin Sheet technology have improved reinforcement and torsional rigidity, as well as new and unique design elements, such as internally mounted fixing points and concealed screws and spikes for clean, seamless lines.

### LIFT-OFF SYSTEM

Packline's patented Lift-Off system lets you load and unload your roof box from three sides simultaneously. The top section also lifts and slides forward when you open the roof box for easy access to every part of the interior.

### 'SAFE NOSE' DESIGN

Packline roof boxes featuring Twin Sheet technology also include our 'Safe Nose' design. This unique design element consists of two overlapping reinforcements at the front of the box, which, when closed, minimise the likelihood of the roof box contents spilling out in the event of a collision. For added safety, latches inside the box secure the overlapping layers.

### BUILT TO LAST

When you invest in a Packline roof box, you invest in high-quality design, materials and workmanship. At Packline, we are so confident in our products that we offer impressive warranties that will give you the confidence you need. You'll find full details of our range of roof boxes, including warranty periods, at the end of the catalogue.

## PACKLINE ADD NEW ROOFBOXES TO THE NX SERIES

The Packline NX series is our latest evolution in roof boxes. It sets new standards for design, storage capacity and aerodynamics. We keep pace with the latest vehicles on the market today, and in 2018, we are releasing two new members to the NX family: NX Premium XL and NX Premium XLT.

Standard black or white - also available in custom paint

Packline NX Premium features our innovative 'Safe Nose' solution and premium fibreglass material to deliver an extremely stable and secure roof box design. Unique features like the new locking system and push-button opening also provide simple and convenient handling.

**NX PREMIUM: Material:** Fiber glass **Dimensions:** L: 215 cm W: 87 cm H: 31 cm **Volume:** 430 liters **Weight:** 29 kg **Warranty:** 10 years! City Crash tested.

Standard black or white - also available in custom paint

Packline NX Premium XL, **in extra large size**, features our innovative 'Safe Nose' solution and premium fibreglass material to deliver an extremely stable and secure roof box design. Unique features like the new locking system and push-button opening also provide simple and convenient handling.

**NX PREMIUM XL: Material:** Fiber glass **Dimensions:** L: 220 cm W: 92 cm H: 31 cm **Volume:** 440 liters **Weight:** 31 kg **Warranty:** 10 years! City Crash tested.

*XLT - CUSTOMIZE*

# TUNNEL BOX DESIGN FOR THE ULTIMATE LOW-PROFILE FIT

The Packline NX series is our latest evolution in roof boxes. It sets new standards for design, storage capacity and aerodynamics. We keep pace with the latest vehicles on the market today, and in 2018, we are releasing two new members to the NX family: NX Premium XL and NX Premium XLT.

Standard black or white - also available in custom paint

Packline NX Premium XLT **with tailor made tunnels for your cars roof racks**, features our innovative 'Safe Nose' solution and premium fibreglass material to deliver an extremely stable and secure roof box design. Unique features like the new locking system and push-button opening also provide simple and convenient handling.

**NX PREMIUM XLT: Material:** Fiber glass **Dimensions:** L: 220 cm W: 92 cm H: 31 cm **Volume:** 440 liters **Weight:** 32 kg **Warranty:** 10 years! City Crash tested.

# NX

215

# THE PERFECT COMBINATION OF VOLUME AND DESIGN

## **NX 215 - THE SCANDINAVIAN VERSION FOR AN ACTIVE LIFESTYLE**

Packline NX 215 is one of the world's first roof boxes manufactured in ABS plastic using Twin Sheet technology. The double layer structure ensures stability, while keeping weight to a minimum. Features like the new locking system and push-button opening simplify handling, while our unique Lift-Off system lets you load and unload from three sides simultaneously.

Standard black - also available with black bottom and custom painted top

Its low height provides excellent aerodynamics, while its length gives you great storage space for your luggage.

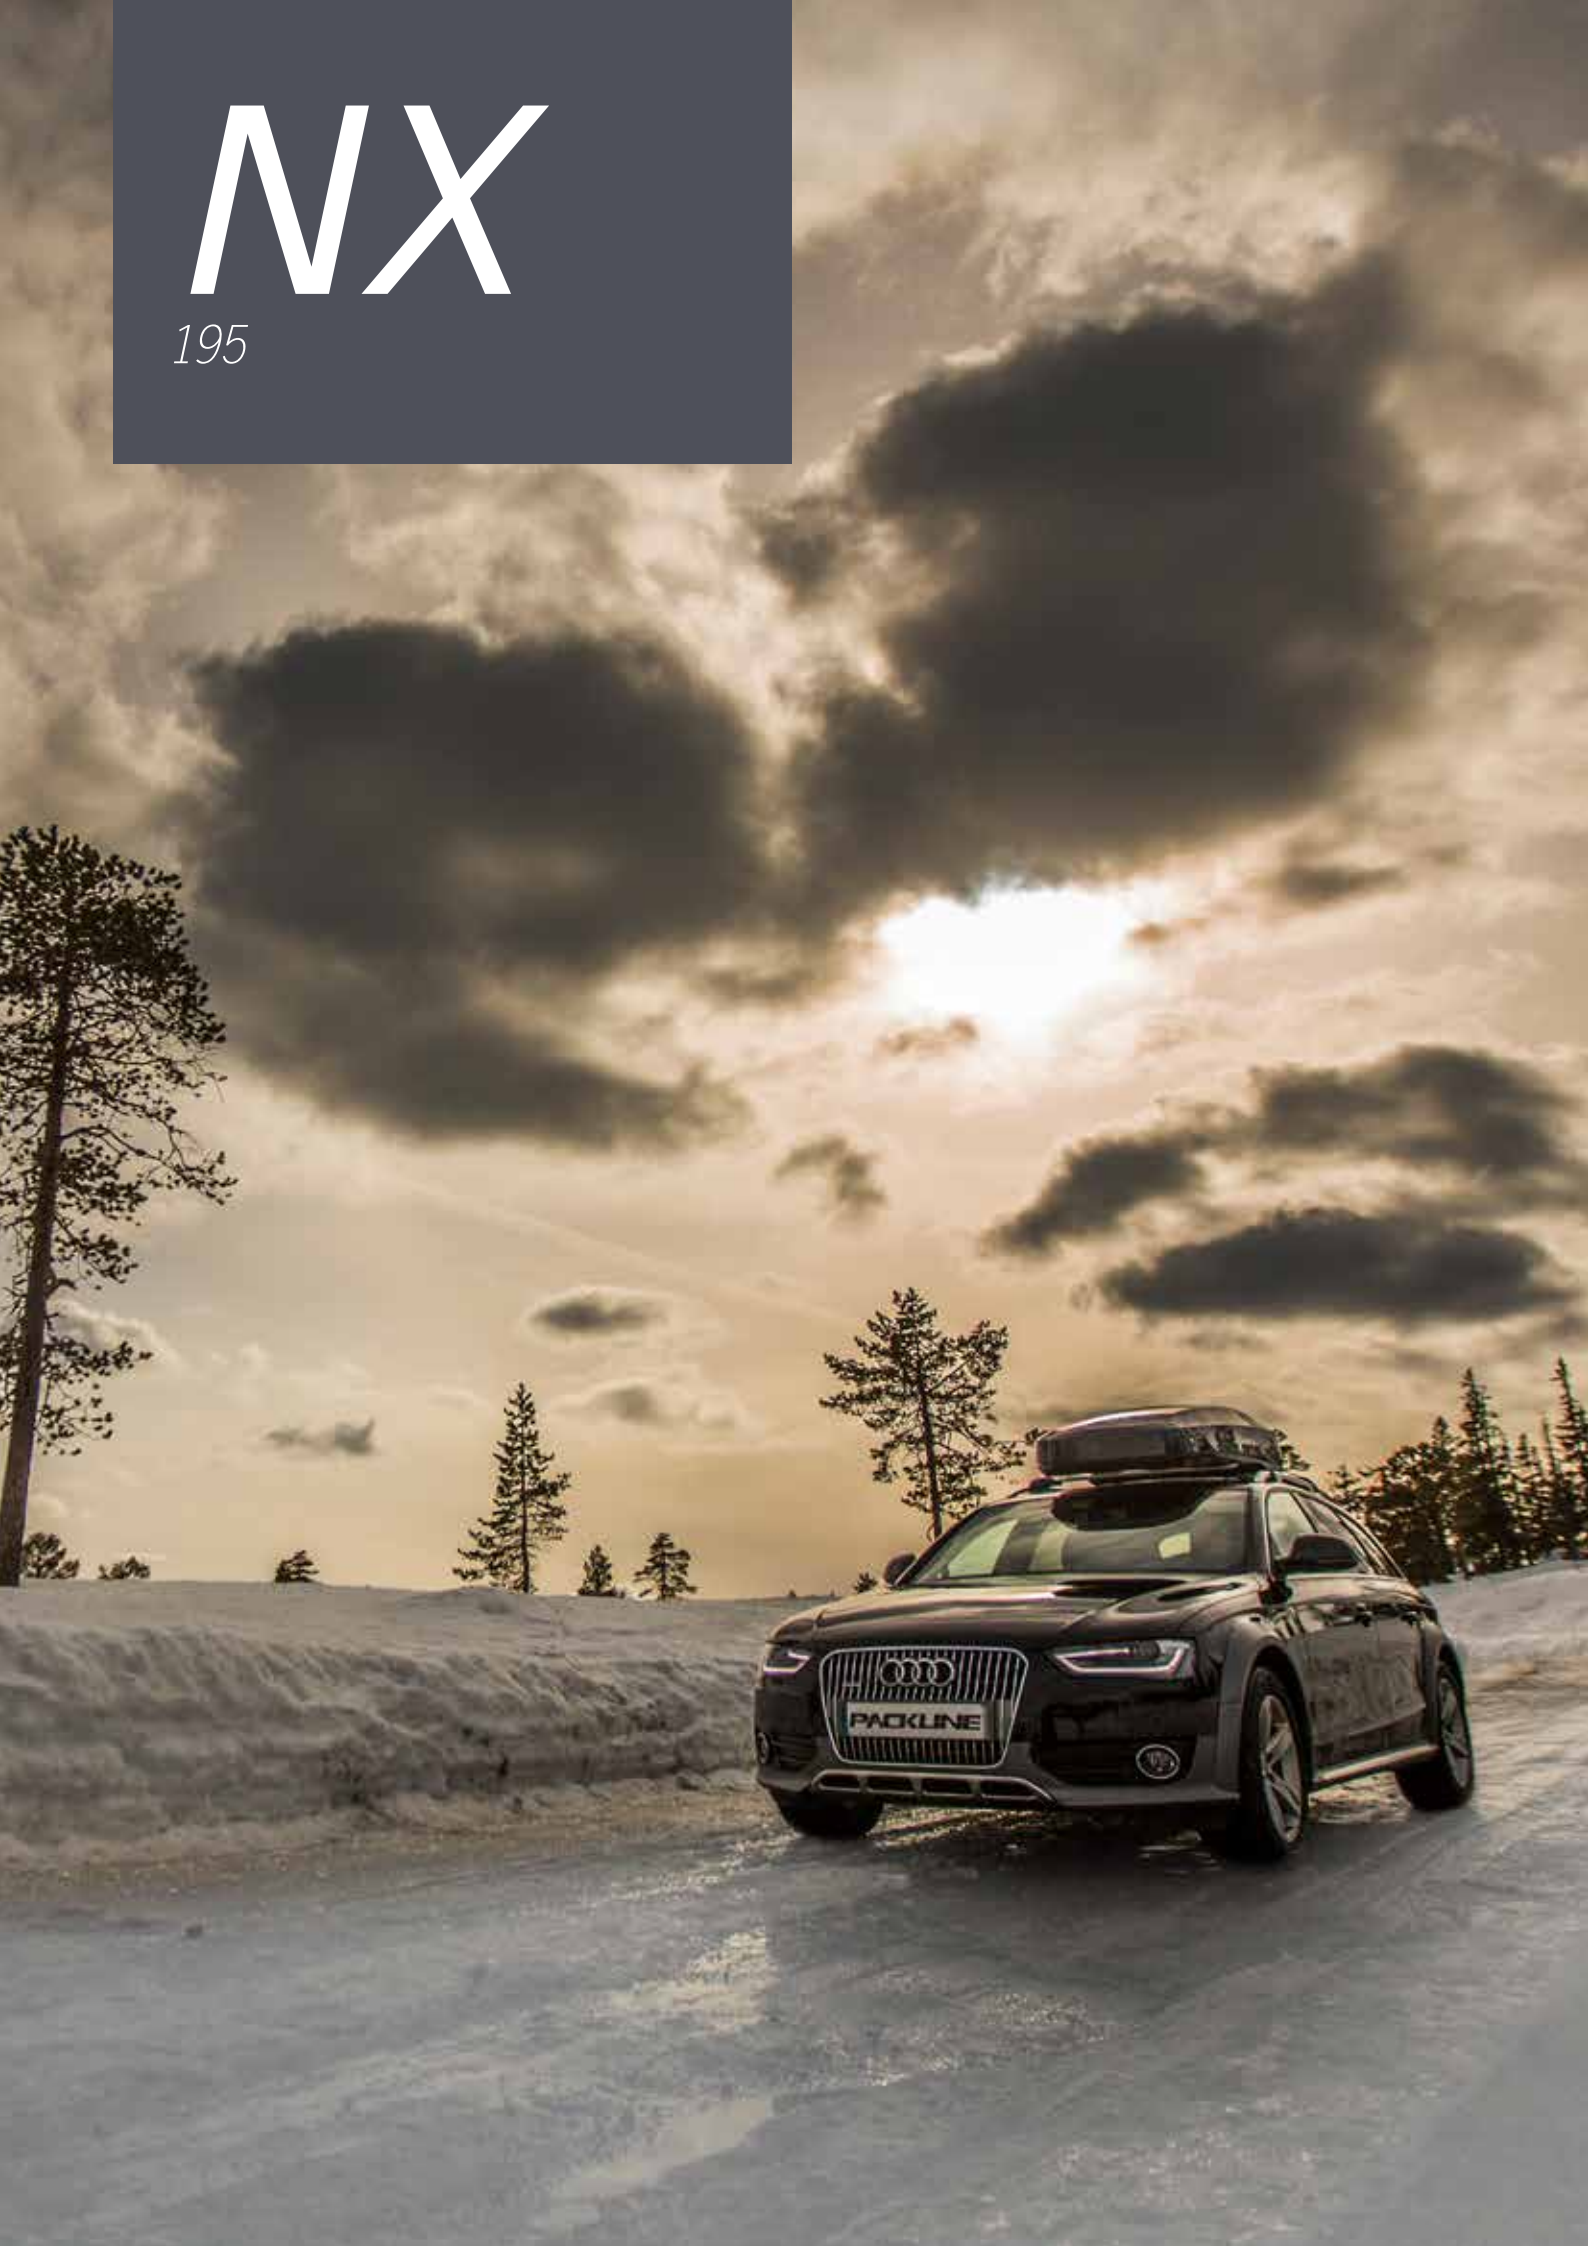

**Material:** High polished ABS acrylic **Dimensions:** L: 215 cm W: 88 cm H: 34 cm **Volume:** 450 liters **Weight:** 24 kg **Warranty:** 5 years! City Crash tested.

# NX

195

# PERFECT COMBINATION OF VOLUME AND DESIGN

## **NX 195 - THE PERFECT FIT**

The Packline NX 195 is the world's first roof box manufactured in ABS plastic using Twin Sheet technology. The double layer structure ensures stability, while keeping weight to a minimum. Features like the new locking system and push-button opening simplify handling, while our unique Lift-Off system lets you load and unload from three sides simultaneously.

Standard black - also available with black bottom and custom painted top

Despite its compact size, the NX 195 features great aerodynamics, large load capacity and a modern design that fits well on most car models.

**Material:** High polished ABS acrylic **Dimensions:** L: 195 cm W: 77 cm H: 38 cm **Volume:** 380 liters  
**Weight:** 19 kg **Warranty:** 5 years! City Crash tested.

# FX

*FX SUV, FX S/FX U,  
FX OFFROAD*

# FIBREGLASS ROOF BOXES FOR ULTIMATE STABILITY

The Packline FX series features sleek roof boxes that harmonise with your vehicle's contours. The series comprises several variants to suit your vehicle type and needs perfectly.

Standard black or white - also available in custom paint

The solid and lightweight Packline FX SUV is specifically designed for SUVs, which typically have large tailgates and short rooflines. FX SUV features the iZi2Connect system for quick and easy mounting. Packline FX SUV-2,0 is the handmade special constructed model for the Swedish market. A longer and taller Packline FX S/FX U model is also available.

**Material:** High gloss polished gelcoat, metal reinforcements, fiberglass reinforced polyester  
**Dimensions:** L: 210 cm W: 90 cm H: 27 cm **Volume:** 400 liters **Weight:** 25 kg **Warranty:** 10 years! City Crash tested.

Standard black or white - also available in custom paint

Packline FX Offroad is specifically designed to fit the more rugged vehicles in the market, such as SUVs, crossovers and models with bodywork protection. These types of vehicles typically feature short rooflines and large tailgates.

**Material:** High gloss polished gelcoat, metal reinforcements, fiberglass reinforced polyester  
**Dimensions:** L: 210 cm W: 90 cm H: 27 cm **Volume:** 400 liters **Weight:** 26 kg **Warranty:** 10 years! City Crash tested.

# FX

*FX210, FX222D  
CUSTOMIZATION*

# TUNNEL BOX DESIGN FOR THE ULTIMATE LOW-PROFILE FIT

If you are looking for an ultra-low-profile roof box tailored to your specific vehicle, the unique 'tunnel box' design of our FX series is the perfect choice. With this design, the roof bars on your vehicle run through the inside of the roof box, which positions it as close to the vehicle's roofline as possible. This optimises aerodynamic performance, minimises added fuel consumption and reduces additional wind noise.

Packline FX roof boxes are manufactured from fibreglass for greater stability and strength, and can be custom painted to match your vehicle. For more information about customising your Packline roof box, visit [www.packline-roofbox.com](http://www.packline-roofbox.com).

Packline tunnel boxes can be fitted with SkiFix for secure storage of your skis during transport. With capacity for up to five pairs of skis and/or snowboards SkiFix is available as an accessory for all our Packline roof boxes.

Standard black or white - also available in custom paint

Packline FX 222D features an extra-deep base and tunnel-box design. The dipped nose also follows the roofline of your vehicle for optimal aerodynamic performance. SkiFix is available for Packline FX 222D and FX 210.

**Material:** Fibreglass **Dimensions:** L: 222 cm W: 90 cm H: 30 cm **Volume:** 470 liters **Weight:** 32 kg  
**Warranty:** 10 years! City Crash tested.

# F

*ELEGANCE, SPORT,  
800 ABS/BASIC, FAMILY*

# FUNCTIONAL ROOF BOXES WITH HIGH VOLUME AND GREAT FLEXIBILITY

While roof boxes made from ABS plastic have existed on the market for years, we have evolved it to meet the latest performance and environmental requirements. The result is the Packline F series roof boxes that offer a high-quality combination of strong ABS plastic, high-gloss acrylic and metal reinforcement.

Packline F-series roof boxes are easy to handle and install, thanks to our iZi2Connect quick-fit system. Our patented Lift-Off system also gives you easy access to all parts of the interior and lets you load and unload from three sides simultaneously.

Standard black or white

Packline F Elegance, is a low-profile and solid roof box that combines great storage capacity with elegant lines. At 225 cm long and with 420 litres of storage, the F Elegance roof box lets you carry just about everything.

**Material:** Environmentally friendly 5,5 mm high gloss polished ABS **Dimensions:** L: 225 cm W: 81 cm H: 30 cm **Volume:** 420 liters **Weight:** 25 kg **Warranty:** 5 years! City Crash tested.

Black matt

Elegant, stable and low-mounted roof box with good capacity and built-in slots for the antenna at the back of the box.

**Material:** Environmentally friendly ABS **Dimensions:** L: 225 cm W: 81 cm H: 30 cm **Volume:** 420 liters **Weight:** 24 kg **Warranty:** 5 years! City Crash tested.

## PACKLINE FAMILY

Packline Family is included in the F series even though the material is fibreglass. Easy to connect and rear opening locking system makes this roof box great to use. Only available in the Swedish market.

# ACCESSORIES

SkiFix, Secures up to five pairs of skis.

KEEP YOUR  
ROOF BOX  
IN TOP  
CONDITION

Prevents luggage from sliding around inside the box.

Box Lift  
Easy to install.

# BAG

*BX 37, BX 60, BX 90*

### ROOF BOX BAGS

Use every inch of space in your roof box with our collection of Packline roof box bags. These waterproof bags in reinforced PVC with heat-welded seams are perfect for storing your ski boots and other accessories. Put them in, zip up the bag and keep the rest of your gear dry.

- Water resistant
- Top loading
- Heavy duty reinforced PVC fabric
- Adjustable shoulder strap

### BAGS DEVELOPED FOR A PERFECT FIT INTO PACKLINE ROOFBOXES

**BX 37 BAG** - 37L – perfect fit for the front end

**BX 60 BAG** - 60L – perfect fit for all roofboxes

**BX 90 BAG** - 90L – XXL size for car luggage

### COMBINATIONS FOR STACKING THE BAGS INTO PACKLINE ROOFBOXES:

Packline NX195 = 1 x BX 37 + 2 x BX 60 (3 bags)

Packline NX215 = 1 x BX 37 + 3 x BX 60 (4 bags)

Packline NX Premium = 1 x BX 37 + 3 x BX 60 (4bags)

### OTHER PACKLINE ROOFBOXES:

We recommend 1 x BX37 + 3 x BX 60!

# WHEEL

BAGS

PRACTICAL AND  
ATTRACTIVE  
WHEEL STORAGE

Made in collaboration with a number of car manufacturers, Packline wheel bags are a smart and practical way to store your winter/summer wheels. Made from durable, tear-resistant material, Packline wheel bags are available in two sizes, and with a 90 kg-capacity and convenient carry handles, they are perfect for transporting and hanging on a wall. And because each bag is labelled, you'll never forget which wheel belongs where.

- Keep your wheels and tyres clean and organised
- Protect your tyres during the off-season
- Transport and store your wheels with the carry handles

# LED

BOX LIGHT

## **FOR PRACTICAL VISIBILITY INSIDE THE ROOF BOX**

Illuminate your luggage with our low-profile LED light, featuring an integrated motion sensor and automatic shut-off. It's also easy to install and is compatible with all Packline roof boxes.

# *MOUNTING SYSTEMS*

*3 WAYS TO INSTALL YOUR ROOF BOX*

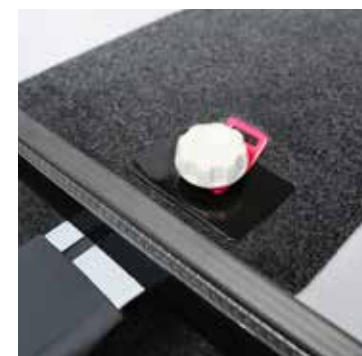

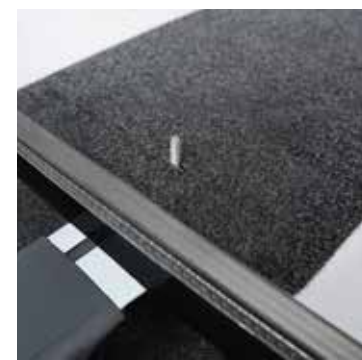

**iZi2connect:**  
 Our new iZi2Connect mounting system secures compatible Packline roof boxes without any tools and in just a few simple steps.  
 City crash tested.

**Boxkit:**  
 This simple mounting system comprised of four brackets allows for simple installation of compatible Packline roof boxes.  
 City crash tested.

**iZi2fit:**  
 Designed for use with aluminium T-racks, the iZi2Fit mounting system provides an elegant and secure installation of compatible Packline roof boxes.  
 City crash tested.

Always remember to secure roof box contents. Fastening accessories are included in all mounting kits
